CONSIDERATION #2: Obtain the desired coverage of Cuba utilizing Det "G" as homebase.

DISCUSSION: This requirement could be conveniently conducted utilizing either 2 or 3 SAC pilots or the present stable of American pilots at Det "G". In either case, the mission could launch out of Det "G", over-fly Cuba and land at McCoy AFB, Florida for downloading and a quick turnaround with a fresh pilot for a low-level run to Det "G".

Cover problems would be at a minimum in view of the present concept of our acknowledgement of hostilities between the U.S. and Cuba.
